Description

General

Extension possible

All tent auditoriums can be extended by 3.00 m and have a side height of 2.30 m. From a length of 27 m, additional wind bracings are required.

Construction and authority check book

All tent auditoriums with a base area of over 75 m² are delivered with a building record book for a fee. It includes the certified structural calculation, a report from German authorities and pages for authority checks after set-up. For tent auditoriums of less than 75 m², the construction and authority check book will only be supplied upon request.

Frame

Truss, tent prop and medium pediment made of extruded 2-channel aluminum hollow profile 84 x 48 mm with a span of 4.00 m, 6.00 m, 8.00 m and 10.00 m and a truss spacing of 3.00 m, aluminum curtain tubes and aluminum spacers. All aluminum parts are anodized and maintenance-free. Steel parts such as base plates, ridge and eaves inserts are hot-dip galvanized according to DIN 50976 and extremely corrosion-resistant.

All screws are galvanized, the wind bracing ropes are covered with plastic. The anchoring is realized by steel anchors.
